

Benito Pedro

Full Stack Web Developer

+55 21 98384-9852

benitopedro21@outlook.com

Rio de Janeiro,
RJ - Brazil

Goals

As a Web Developer, my primary goal is to understand the team's environment and needs to create effective and functional applications that solve problems and achieve the required objectives. At the same time, I constantly seek new challenges that allow me to apply my logical reasoning and technical knowledge while learning and implementing new technologies and paradigms to contribute to innovative solutions.

Technologies

React.js | Vue.js
Next.js
Tailwind | CSS | SASS
AWS | GCP | Digital Ocean
HTML

Node.js (Nest.js | Fastify | Express)
Databases (SQL | NoSQL)
API (REST | gRPC)
Typescript | Javascript
Linux | Docker

Experience

March 2020 - June 2022

Full Stack Developer
Dutra Design

Set 2021 - May 2023

Full Stack Developer
Trivod

Set 2023 - Current

Full Stack Developer
Juicy Space

Duties

- Develop and maintain web applications, ensuring high performance, scalability, and security.
- Collaborate with multidisciplinary teams to define, design, and launch new features.
- Analyze and understand user needs and project requirements to develop effective solutions.
- Write clean, efficient, and well-documented code, following best development practices.
- Manage and prioritize tasks to ensure project deadlines and goals are met.
- Perform testing and debugging of applications to ensure the quality and functionality of delivered products..
